

To whom it may concern:

I would like to take this opportunity to recommend Natalie Pluto to be a part of your program at New York Film Academy, LA. As the Video Production Faculty Member of the Grammy Foundation, I had the pleasure of working with Natalie for multiple summers during GRAMMY Camp LA and NYC. Each year, she was an excellent student and an asset to our video team.

We would not have been able to create all of the high quality videos within our limited time at GRAMMY Camp, had it not been for Natalie's contributions. She is very creative and isn't afraid to conceptualize stories that at first seem daunting in execution. Despite initially being relatively new to the software, she quickly became one of the leaders. She maintained focus throughout the program's entirety and met every project's deadline. Overall, I believe that she greatly added to the quality of the camp's experience.

Since leaving camp, Natalie has made an excellent effort to keep in touch with me, and it is clearly evident that she is still striving for more. She doesn't wait for work to be assigned, she creates opportunities for herself outside of the classroom. Therefore, I am confident that she will continue to succeed in her studies.

It is for these reasons that I offer high recommendations for Natalie without reservation. Her passion and proficiency will truly be an asset to your Film Academy. Please do not hesitate to contact me if you have any questions regarding this recommendation.

Sincerely,

Hadaya Turner
